Experience

Front-end Developer, SRKay Consulting Group. – Surat, Gujarat Dec 2024 – Present

- Engineered **high-performance, responsive UI components** using **Angular**, **PrimeNG** and **IgniteUI**, improving user engagement and page load speed.
- Built **dynamic, drag-and-drop dashboards** using **Gridster**, enhancing customization and usability for end users.
- Applied **Web Workers** to offload heavy computations and background API calls, boosting UI responsiveness.
- Implemented **real-time data synchronization with WebSockets**, enabling instant dashboard updates without manual refresh.
- Led **Angular version migration** projects, ensuring backward compatibility and leveraging **latest performance optimizations**.
- Refactored code to optimize rendering and improve API response handling time.
- Developed interactive HTML5 canvas features using **Fabric.js** to build drawable, draggable, and exportable UI components, enabling richer visual editing and improving user workflows.

FullStack Developer, Kintu Designs Pvt. Ltd. – Surat, Gujarat May 2024 - June 2024

- Created and deployed a **real-time chat application** using **MERN stack** and **Socket.io**, supporting messaging, group chats, and push notifications.
- Integrated **real-time typing indicators** and **JWT-based authentication** to ensure data security.
- Designed **RESTful APIs** with Node.js and Express.

Education

Devang Patel Institute of Advance Technology and Research 2021 - 2025
Bachelor's In Computer Engineering - (CGPA: 9.0/10.0)

Projects

New Product Development (NPD) System | Angular

- Developed a scalable and responsive front-end using Angular, improving user experience and application performance.
- Implemented role-based access and secure authentication for improved data security.
- Built reusable and modular components, improving maintainability and reducing development time.
- Improved efficiency, collaboration, and delivery timelines for jewellery design firms by replacing manual processes

CAREER CONNECT | Angular, Node.js

- Designed and developed a job portal with real-time hiring alerts, Google OAuth, OTP authentication, and re-CAPTCHA v3 for security.
- Integrated WhatsApp API via Twilio to deliver personalized job notifications to users.
- Implemented interactive analytics dashboards for recruiters to track hiring trends and manage candidates.

Technical Skills

Languages: C++, Javascript, SQL

Technologies/Frameworks: Javascript, Angular, NodeJs, ExpressJs, MongoDB, Fabric.js, NGINX

Concepts: OOPS, DBMS, OS, DSA

Developer Tools: VS Code, MongoDBCompass, Android Studio, Postman, Figma

Achievements

- Competed in **Ping Data Structure** and **CodePie 3.0** university-level coding contests.
- Participant in **Coder's Arcade 1.0** competitive programming event.
- Profiles : [CodeChef Link](#) | [Leetcode Link](#)
